

# GO Enrichment

Biological Process

Triglyceride metabolic process

Steroid metabolic process

Small molecule metabolic process

Small molecule catabolic process

Small molecule biosynthetic process

Single-organism catabolic process

Oxoacid metabolic process

Organonitrogen compound catabolic process

Organic acid metabolic process

Organic acid catabolic process

Organic acid biosynthetic process

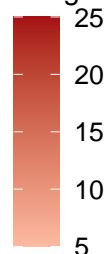

Monocarboxylic acid metabolic process

Carboxylic acid metabolic process

Carboxylic acid catabolic process

Alpha-amino acid metabolic process

$-\text{Log}_{10}(\text{Pvalue})$

Fold Enrichment
